Risk Management experience

Dan has extensive experience in risk management within the private, government and not for profit sectors. He has developed risk management frameworks for global organisations, state and local governments as well as for individual programs and projects. Dan has led risk assessment and treatment activities in a variety of highly dynamic and volatile environments including within correctional, aerospace and high risk population settings.

Dan has been responsible for increasing the capability of both senior executives and front line staff in order to both protect and create value through effective risk management.
