

Environmental Management Systems

Exemplar Global EM

Learning Outcomes

Participants, after the successful completion of this course, will have a detailed and practical understanding of ISO 14001:2004 Environmental Management Systems.

Important

- All course work and assessments are conducted and completed during class hours
- There is no homework
- Certificates are issued promptly upon the completion of the course
- We never cancel a course
- Trainers are practicing audit professionals.

This course includes a complimentary copy of ISO 14001, along with all learning materials and refreshments.

Standards covered

This 2.5 day specialised course provides a comprehensive and practical understanding of:

- ISO 14001:2015 - Environmental management systems - Requirements with guidance for use.

Course Outline

The course explains the importance of having and maintaining an Environmental Management System, and gives the participant an understanding of how to:

- Apply an Environmental management system to various organisational situations
- Identify environmental aspects and their impacts
- Integrate an EMS with other management systems, such as Quality and OHS

- Recognise the documentation required by ISO 14001:2004.

Additionally, the course will cover upcoming changes to Environmental management systems, and the upcoming revision of ISO 14001.

Timetable

Wednesday

Management Systems Underpinning Knowledge

- Scope of Environmental and Integrated Management Systems
- Requirements of ISO 9001 - Quality management systems to form underpinning knowledge of management system requirements.

Thursday

Environmental Management Systems

- Finish at 12.30pm
- Requirements of ISO 14001
- Organisational aspects and impacts.

Friday

Auditing scenarios

- Review of Environmental and Integrated Management System requirements
- Environmental audit scenarios
- Course review.

Assessment

During the course, participants will complete a single workshop which forms part of the assessment. Upon the completion of the module, there is a short multiple-choice test which assesses the knowledge and understanding of the standard. Finally, participants apply the requirements of ISO 14001 against a series of auditing scenarios. Participants receive continual assistance and feedback from the trainer.

Qualification

Upon successful completion of the course, each participant will receive a Certificate of Attainment which identifies the Exemplar Global competency below:

- Exemplar Global EM

Additional Exemplar Global competencies for Management Systems auditing, OHS, and/or Quality Management Systems (Exemplar Global AU and TL, OH, and/or QM) may be added during the same week of training, or attended separately. Competencies for Food Safety Management Systems may be attended separately.

Who should attend

Designed to cater to a variety of people currently involved in the audit and Environmental Management System process, you should attend if you:

- want to become an internal EMS auditor
- need to write and implement an EMS
- are involved in the Environmental management process
- are managers responsible for their EMS and EMS auditing
- wish to consolidate their existing knowledge into a formal qualification.

A business background is preferred, however prior experience in auditing and management systems is not essential.

Cost and Payment

The cost of this course is \$1,395 (incl. gst) per person. Payment can be made either by direct debit or credit

card. We do offer payment plans, however PwC must receive payment prior to the issuing of the certificate.

Trainers

PwC has a team of expert trainers who are all practicing auditors in the fields of Quality, Environmental, and OHS Management Systems certification. Our trainers have great delivery and training techniques, and make the course relevant and practical with real auditing experiences.

Where to from here?

This course has a number of options which can be added to in order to provide a specific understanding of Quality or OH&S Management Systems, or becoming a lead internal or external auditor.

If you wish to become an Environmental auditor under the Exemplar Global auditor scheme, you must also have successfully completed Exemplar Global AU and Exemplar Global TL (provided under Becoming a Skilled Lead Auditor or Environmental Management Systems Lead Auditor). Once you have also obtained these competencies, you can follow either a qualification-based certification path, or competency-based. A full explanation of the requirements to become certified with Exemplar Global can be found on their website or contact us for more information
